

Sitting Pretty

Graphics

Hey,

Nice to meet you.

I'm Lauren, Creative Director and owner of Sitting Pretty Graphics.

Sitting Pretty Graphics started when I lost my Dad to a heart attack and had one of those stereotypical "what am I doing with my life" moments. Working for other people who loved to tell me how to do my art was not what made me happy so I made a change, took a leap, dumped a tonne of money into Google Ad Words and crossed my fingers. My business coach tells me that's not the best way to start your own business but hey, here I am.

I know how scary-exciting it can be to start your own business and I know how amazing it feels to make your first sale. Working with you as you grow and being part of the continued successes of businesses is what it's all about for me - there is no better feeling.

I believe that your businesses logo and branding should speak to your target market and make them want to work with you. Let's work together to get that happening. My team and I can't wait. *We'll have you sitting pretty amongst your competitors.*

Set Price Logo & Branding Packages

A logo is the beginning of your brand, and your brand is your business. Your logo communicates to anyone who looks at it specific feelings. You can choose how your business is perceived via your logo and therefore the type of customers you attract.

Fonts, colours, concepts, symbolism – they're all considered and developed when designing a logo to attract your ideal customer. Sitting Pretty Graphics have created hundreds of logos so we know what it takes to make a logo that you can use on all of your marketing materials.

We do set price packages because no-one likes surprise bills.

How do we start?

- 1. We meet / skype / email***
- 2. You choose which package you want***
- 3. You fill out our questionnaire and pay a 50% deposit***

We do the rest

Investment (paid over 2 installments)	\$750 +GST	\$995 +GST	\$1295 +GST	\$1795 +GST

Graphic Design

Designer for a Day

We can supply a qualified graphic designer with a laptop and all the right programs to your business site for an 8 hour work day for a one time cost of \$960 inc GST. You provide the list of jobs and we do as many as we can, all on the one day. Typically, our clients get \$1500-\$2000 worth of design done on these days because we can focus solely on your business and you can provide feedback immediately, eliminating the 20 emails back and forward with revisions. *Please note, we're happy to tweak an existing logo, but it's just not possible to create a new logo in one day.*

DESIGNER FOR A DAY

Work directly with a professional graphic designer for an entire day.

- Accelerated concept creation
- Clear communication
- No back and forth emails required!
- Get your projects finished & move on

\$960
INC GST

Hourly Rate

Alternatively, if you have just a few odd things you'd like done on an ad-hoc basis you can email us each job as it comes along and we're happy to help out and fit these smaller jobs in between our larger projects.

Digital Design

Designing for Screens

Designing something for print is different to designing something to go on a screen. We know how to make sure your cover photo doesn't get cropped terribly, how to security protect your PDF workbooks, set up Mailchimp email templates or create a suite of ads for google (plus anything else you can think of). Big screens or little screens, just ask.

Websites

We can help with simple websites and styling choices and advice on fonts and colour schemes. We have great relationships with other designers too if you require complex things like ecommerce stores, SEO heavy marketing platforms etc and are happy to point you in the right direction.

Email Newsletters via MailChimp

The eco-friendly flyer

Email newsletters enable you to reach your contacts quickly and easily via their inbox. Great for companies with a monthly special, a blog, a special announcement or to spread educational tidbits. Often inexpensive and possible to DIY as much as you're comfortable with.

MailChimp Services	Prices
MailChimp Account Set Up -import clients from .csv file into MailChimp -set up one Audience with up to 3 Segments/Tags -extra Audiences + \$25	\$200
MailChimp Template Creation -create a newsletter template for your account with your branding colours, fonts and logos included -1 hour of on site or over internet training to show you how to use the template	\$250
MailChimp Campaign - Monthly -Create a new newsletter each month and send to your audience from the template. -You will send to us any written content you'd like to include <i>-We can source appropriate stock images or create simple graphics at \$4 each or you can supply images too.</i>	\$150/mth
MailChimp Account Management -Manage Unsubscribes, keep audience list organised, create new segments / tags as required, update branding, create graphics as needed.	\$90/mth

All prices are exclusive of GST

Printing & Promo Products

Print Management

CMYK, RGB, Pantone, JPG, PNG, Vector, DPI? Do you know the difference? Everything we design, we can get printed. We get projects printed by local trade printers at wholesale rates, meaning we offer complete quality control with exceptional pricing and fast turn around times.

We would prefer to manage the print for our clients as we know exactly how the file is meant to turn out and can guide you on print methods and work with the printers to get a great result rather than just uploading online somewhere and hoping the colours come out okay.

Promo Products

We can supply promotional products too, often within a 5 day turn around from time of order. We've built relationships with wholesale suppliers over the years with excellent quality products and competitive prices.
